

**BUNBUKU**  
MADE IN JAPAN SINCE 1918

# FITS

Its simplicity and subtleness, its practicality and longevity all come from thought and sincere craftsmanship we have carried on for the past century. These tapered waste baskets can be used in many different ways to fit your lifestyle.

## BLENDS

For the past 100 years, these tapered waste baskets have been used in many different scenes throughout our country - in schools, in the offices, and in homes, blending into and supporting the everyday lives of the people in Japan.

# LASTS

Made out of steel and joined together by caulking instead of welding, these tapered waste baskets are tolerant against rust and fire. “Made in Japan” from start to finish, they are so durable you can rely on them to grow old with you.
